

Select Structural SYP T&G w/ V

Southern yellow pine T&G w/V is an exceptional product for both floor decking and ceiling decking. Golden yellow in color, this wood is a great choice for using as is or applying any color stain to achieve the color of a more expensive wood at the competitive price of pine. Because of the thickness, this product is recommended for spanning 4' or less on floor applications and 6' or less on ceiling applications.
